

Scholarships and Grants

ICT skills centre Ltd has patterned with the Private sector Foundation Uganda (PSFU) for a research project aimed at fostering the adoption of digital technologies by SMEs and the larger community running enterprises in the informal sector. This is aimed at using Digital technologies as a tool to formalize the enterprises in the informal sector which is the biggest employer in the country.

We at ICT skills Centre Ltd are committed to empowering graduate (M.Sc. and PhD) students in the field Engineering and Technology by giving them both hand-on skills and financial support as a way of giving back to the community.

We are currently inviting applications from eligible candidates for our annual \$5,000 scholarship. The scholarship is based on merit and academic achievements.
